Level Switches
Model WRS / WCS

Wika datasheet WRS WCS

Application
WRS and WCS series switches are suitable for most industrial and commercial applications including:

- Refinery and chemical industries
- Energy and power plant technology
- Fuel water heaters and boilers
- Oil and gas industries
- Offshore exploration and drilling
- Pipeline compressor applications

- Features**
- Process temperature ranges from -320°F to 600°F or -194°C to 343°C
 - Mounted externally to the process, can be maintained without interruption
 - Cast aluminum epoxy coated housings
 - Adjustable design allows for custom switch locations

Specifications

WRS
Switch type: Magnetic reed contact; 1 SPDT or DPDT.
Contact behavior: Bistable (magnetically latched). Switching capacity (non-inductive loads): 230V AC, 200VA, 1A or 230V DC, 30W, 0.5A

WCS
Switch type: Dry contact snap-action. Contact type: 1 SPDT.
Contact behavior: Bistable (magnetically latched). Switching capacity (non-inductive loads): 230V AC, 200VA, 1A or 230V DC, 60W, 2A

Housing Options
NEMA 4X epoxy coated aluminum, 304/316/307S aluminum or stainless or NEMA 7F FM class 1, division 1, group B

Electrical Approvals
FIS

Hysteresis
2.5mm for WRS series, 5.10mm for WCS series

Termination Type
Terminal block

Honsberg Instruments GmbH
Level Switch NW1

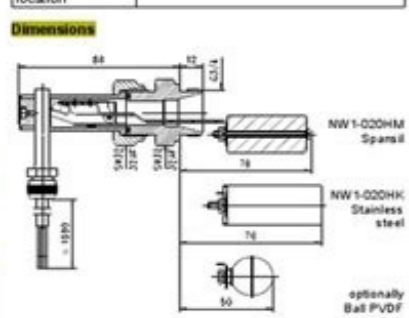

Product Information
Level Switch NW1

Item number	1-020HM, 1-020HM/K
Material	1-020HM: stainless steel, 1-020HM/K: stainless steel
Weight	0.35 kg
Installation	horizontal installation

- Highly reproducible
 - Normally open or normally closed contact
- Characteristics**
Mechanical level monitor for fluid media, with contact free triggering at a level setting.

Technical data

Fluid	level switch
Process connection	1/2" NPT, 1/2" A
Material of medium	Stainless steel/Fluor - 1-020HM/K
Pressure	Stainless steel/Fluor - PN 10
Temperature	Stainless steel/Fluor - PN 10
Temperature range	-30 ~ +110 °C
Temperature range	-30 ~ +75 °C
Level	variable, 0-8
Setting	normally open or normally closed
Wiring	NO, NC, COM

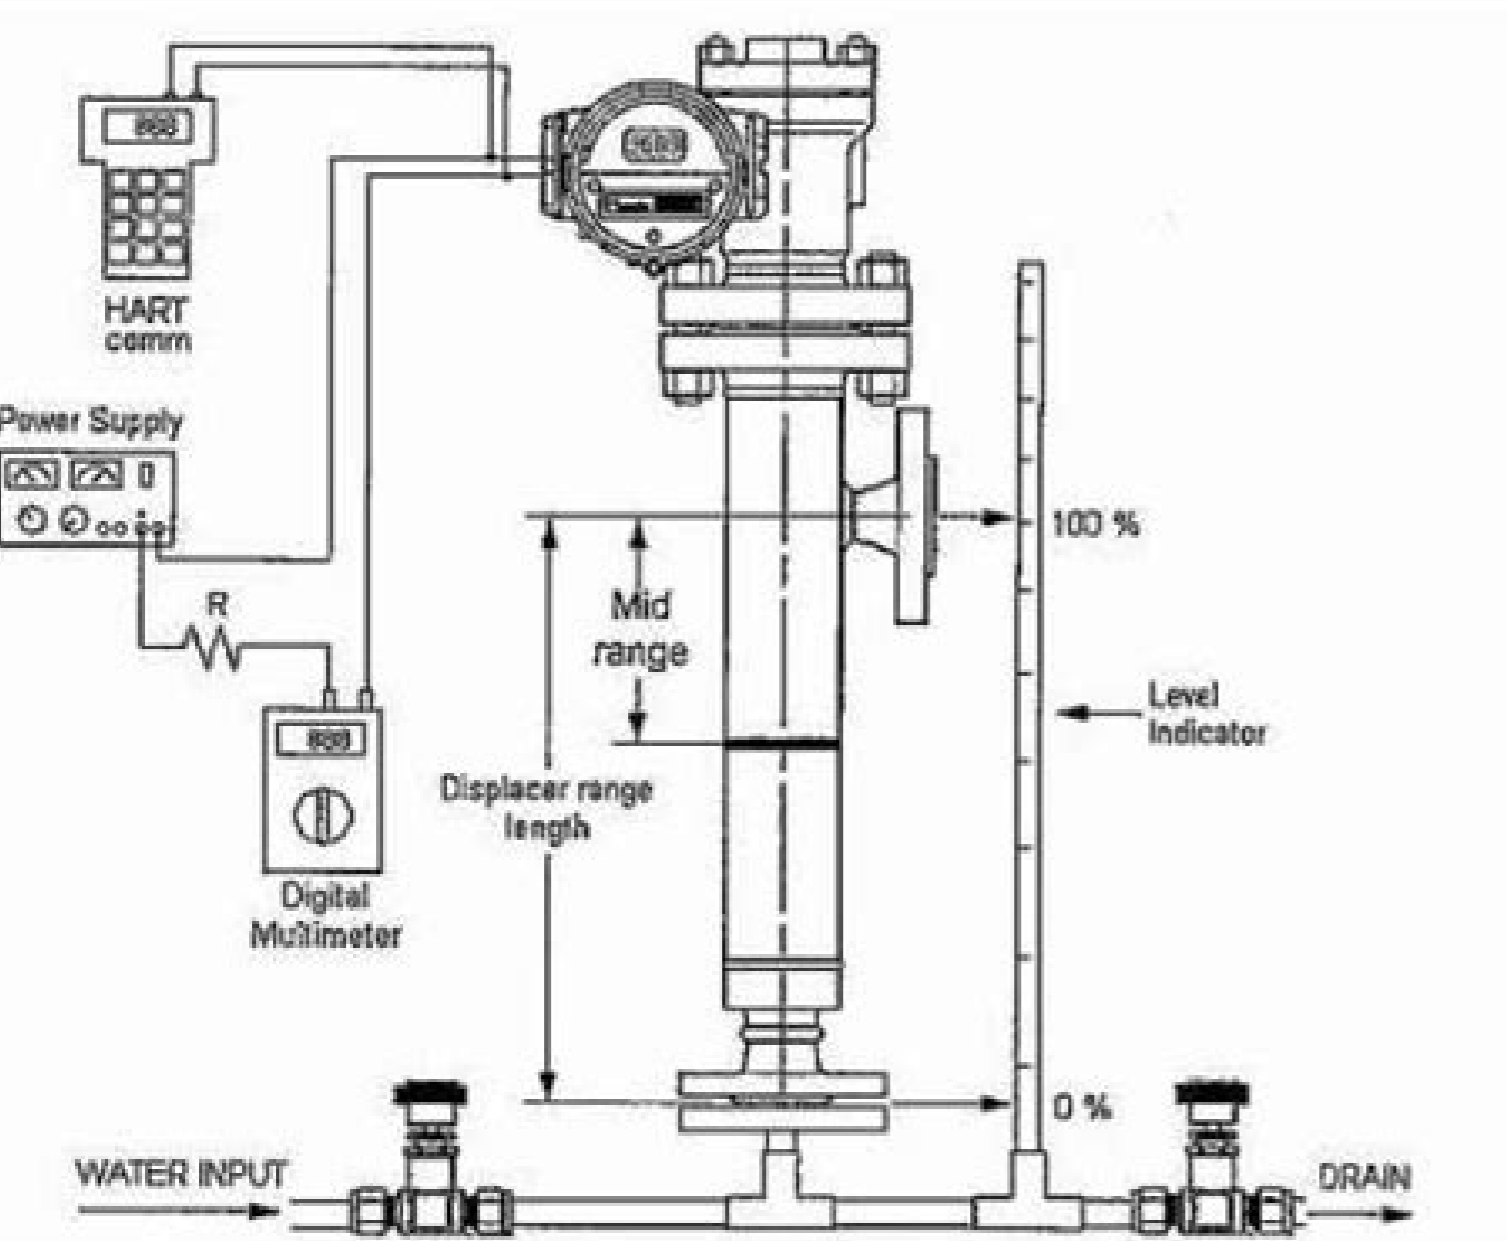

- Handling and operation**
- It must be ensured that the values given for voltage, current, and power are not exceeded.
 - When installed in a tank must be connected in series. The electrical switch must be closed only. Carefully adjust and stop switch from opening using a protective screw.
 - Not suitable for use in media with foreign particles.

Ordering code

Ordering code: 1-020HM/K

1	Connection size	020 - Electrical connection 1/2" A
2	Process connection	020 - 1/2" NPT
3	Connection material	020 - Stainless steel
4	Setting	020 - Normally open
5	Material	020 - Stainless steel
6	Switching and option	020 - Switching with ATEX/ATEX 212
